Note: Spirit Dance is a sacred event facilitated through spiritual musical channeling. It is designed to transform and expand the consciousness of all who participate. "Spirit Dance is the only healing modality that balances the mind, body, and spirit simultaneously. Please bring a bandana or scarf to experience blindfolded movement/dance that is safely guided by facilitators to help everyone access their spirit within. Also, if you have one, please bring a musical instrument (non-electric) to join a special "Musical Playshop" after the dance/movement. There will be a few extra instruments available for those who don't have an instrument to bring.
